NUMB. 4006

FRIDAY, DECEMBER 14, 1744.

THAT the Publick can never suffer by any Liberties that are taken in discussing Foreign Affairs, is a Point I shall be always ready to maintain; as it is an Opinion from which I never can depart. In pursuance of this Maxim, I not long ago undertook to explain the Nature of Tontine, and to shew what that Method of raising Money was in France. I shall confess that it surpriz'd me very much, to find it possible that my Meaning should be mistaken; or that the Desire of making other People as wise as the French, should be construed into a Deligo of serving that Nation; was natural, our implacable Enemies; with whom we are, at present, at open War; and with whom, even in Time of Peace, it is absolutely impossible that our Interests should agree.

The Account I gave of the Tontine was a true one; and the Facts mentioned therein cannot be disputed; the only Question that can arise, is, Whether this be an *advantageous Way of raising Money*, or not? and which ever Way that Question be refolved, it is always impossible that any Thing said upon that Occasion should serve the Purposes of France; or should give any Man in his Senses a Notion of trusting his Money in that Kingdom, upon the Faith of an arbitrary Prince, whose Politicks have already brought him into great Difficulties; and who, while he carries on the present Plan for saving other People's Subjects, must necessarily exhaust and impoverish his own.

If the Method of raising Money *à la Tontine*, be in Nature bad, or, to speak more clearly, disadvantageous to the Lenders; then the explaining that Method of raising Money, was certainly doing a Service to the Publick, by setting an intricate Affair in a right Light. Now take it the other Way, and suppose the Tontine to be an *advantageous Scheme*, for supplying the publick necessities from the Purses of the People; carry it still further, suppose it ever so *advantageous*, I have shewn in that Account, that in two Experiments made in the late Reign, it fail'd. Once there was rais'd but a Quarter, the second Time but a Half, of what was proposed. What could this possibly arise from, but the Badness of the Security; and was ever any Man tempted, I mean any Man that knew what he was doing with his Money, to part with his Property, where the Security was bad, tho' the Terms propos'd to induce him to part with it, were ever so good? By shewing therefore, that this Method had formerly fail'd in France, even when great Measures were kept; and, as in the Case of the Surgeon's Widow, the Terms strictly complied with, I gave the chief Proof that could be imagin'd of the Badness of the Security; and, consequently, did not deserve to be charg'd with recommending a French Project, or putting into People's Heads to hazard their Money Abroad, when they might dispose of it safely at Home.

The Design of that Explanation was neither more nor less than the Tule spoke it; it was a bare Detail of Letters of Fact, for the Information of such as were acquainted with them; and I cannot help thinking, that the supplying the Want of Intelligence, when Mails are due, by such Accounts as these, is a much better Method of entertaining the Publick, than either giving them stale News in a new Dress, or imposing upon them Conjectures for Matters of Fact. It is not impossible that the most cautious Writer in the World may miss, or imposed on by his Correspondents; but believe the Publick will do me the Justice to own, that the Foreign Intelligence in this Paper, is, at least, as accurate as in any other; and therefore they will excuse me for hazarding their good Opinion, by having regard to such Arts as every intelligent Reader must despise.

HOME PORTS.

Dear, December 11. This Morning it has blown a terrible Storm at N. N. W. with much Snow. A great many Ships are drove out of the Downs, and driving towards the Coast of France; one of them we saw about Main and Mizen Masts; as is also another, at Anchor off here; to which last a Cutter is gone from hence, to see if they can give her any Assistance. There also at Anchor a Three Deck Ship, about two Leagues with her Yards and Top Masts down, She came from the Westward, and is supposed to be the Shrewsbury, from Portsmouth. Yesterday, after Post, arrived English, in nine Weeks from Maryland. She came from the Capes in Company with the Alfred, and the Concord, Fraizer, for London, and the

Coulter, for Glasgow; but parted with them two Days after, and suppose they all went North about. Also arrived the Feron, Sutcliffe, from Jamaica, late from Portsmouth.

Deal, December 12. Wind N. by W. and blows hard. This Morning we had a most violent Storm of Wind at N. W. and by N. which begin about Three o'Clock. Several Ships are drove from the Downs to the Westward; and several in the Downs have lost their Masts, but cannot tell their Names. Arrived Yesterday his Majesty's Ships the Namur, Buckingham, Warwick, Oxford, and Mercury Firstship, from Portsmouth; the rest remain with the Chester, Exeter, Anglesea, Gosport, Aldborough, and Granado Bomb; and a great many of the Outward-bound Ships,

LONDON.

Last Week Mr. James Moseley, a Gentleman of a large Estate in Birmingham, was married to Miss Anne Sprott, of Marsh, in that County, a Lady with a handsome Fortune.

A few Days since, the Lady of Sir Richard Wrottesley, Bart. was safely delivered of a Son and Heir, at his Seat at Wrottesley, in Staffordshire.

The Books of his Majesty's Ships the York and Romney, are sent from the Pay Office for Plymouth, to pay their Companies to the 1st of December, 1742; add to put them out of Commission.

Also the Books of the Folkestone are sent for Portsmouth, to pay her Company to the same Time; and to put her out of Commission.

Last Wednesday Night an elderly Gentleman, who did Business in the Temple, returning Home, was unfortunately jamm'd against the Wall, in White Fryers, by a Dray, and kill'd on the Spot.

Yesterday Morning the House of Mr. Wilson, at Newington, was broke open, and rob'd of Plate and Linen to a great Value.

The Right Hon. the Lord Romney set out Yesterday, from his House in Dover-street, for his Seat near Maidstone in Kent.

Yesterday the following Numbers were drawn Prizes in the State Lottery; viz. 7905, 1000 l. 16 834, 47 390, 500 l. each; 41,043, 4388, 34,342, 47,788, 100 l. each.

Admiralty-Office, December 12, 1744.
THE Lords Commissioners of the Admiralty do hereby strictly direct all the Petty-Officers, and Foremen, who belonged to his Majesty's late Ship the Rye, to repair immediately on board his Majesty's Ship the Bridgewater, at Portsmouth, where they will be paid their Wages due to them for the Rye; and if they apply to the Navy Board, they will allow them Condukt Money to Portsmouth, and Carriage for their Chest and Bedding. But if they fail in repairing down to Portsmouth, as above directed, they will not only lose their Wages for the Rye, but the Marshal of the Admiralty will be directed to apprehend them, in order to their being tried at a Court Martial as Delinquents.

WHEREAS by an Establishment, which has been long in Force in the Royal Navy, a Schoolmaster is allowed to each of his Majesty's Ships of the Third, Fourth, and Fifth Rate, with the Allowance of Midshipman's Pay, and Twenty Pounds a Year besides for his Encouragements; but an Opinion having prevailed of late Years, that since the Erection of a Royal Academy at Portsmouth, for Educating and Training up Gentlemen's Sons for his Majesty's Sea Service, the Establishment of Schoolmasters has been abolished; which Opinion being hurtful to his Majesty's Service, by preventing Persons from applying to be employed in that Capacity, and thereby depriving the Youth, who serve on Board his Majesty's Ships, of the necessary Assistance for perfecting themselves in the Art of Navigation; The Lords Commissioners of the Admiralty think proper to order this publick Notice to be given, that the Establishment of Schoolmasters on Board the Ships of the Royal Navy is still in Force; and that if Persons properly qualified, by having passed an Examination at Trinity House, will apply to this Office, they shall meet with all due Encouragement, and be warranted as Schoolmasters, on board such of his Majesty's Ships as may be in want of them.

Dr. ROBERT EATON'S BALSAMICK STYPTICK,
Truly prepared and sold at the Doctor's late Dwelling House, now Mrs. DUTTON's, in Salisbury-Court, Fleet-street.

T H I S Medicine restrains, in a most surprizing Manner, all internal as well as external Hemorrhages, i. e. it infallibly and quickly stops all dangerous Bleedings at the Nose or Gums, spitting or vomiting Blood; also the immoderate Flux of the Hemorrhoids or Menstru; bloody Urine or Stools, bleeding of large Wounds, &c. as will appear by the Certificates of several Eminent Physicians, and in the large Account of this Medicine, written by the Doctor himself, and dedicated to the College of Physicians a little before his Death.

It keeps good for many Years, at Sea or on Shore, in all Climates; therefore must be universally Usefull.

The Doctor not only obtaining his Majesty's Letters Patent for the sole Vending of this most Excellent Medicine; but also a Clause in a late Act of Parliament, exempting this Medicine from the Inspection of the Censor of the College of Physicians, to which all other Medicines are liable.

N. B. The late Learned Dr. CHEYNE, in his Excellent Piece, entitled *The Natural Method of curing the Diseases of the Body, &c. prefers Eaton's STYPTICK to Helvetius's and other Stypticks; and speaks of it as follows: — Every one knows the agglutinating Quality of sweet Blood, and I apprehend it is to this, that EATON's STYPTICK owes its soft, mild, soldering Efficacy. — It is more soft, substantial, and soft, than the mildest Steel Preparations, and more fit to patch a Hole, or glew up a Rupture, or to give a Balsam to the acrid and inflam'd flowing Blood of the Patient. He says, he is confirmed in this by a Physician of great Worth and Candor, who has great Opportunities of dealing in such Cures, by his Practice in Midwifery. See p. 182.*

Publish'd by Virtue of his MAJESTY's Royal Letters Patent,

M R. GREENOUGH's Tincture for preserving the Teeth white and beautiful, destroying the Scurvy in the Gums, and curing the Tooth-Ach.

The Tincture for preserving the Teeth, in a few Days, perfectly cures the Scurvy in the Gums, makes them white and beautiful, fastens them when loose, preserves them from growing rotten, and keeps such as are already decayed, from becoming worse; and in a little Time removes the Cause of an ill-scented Breath, except where the Lungs are infected. Each Bottle of this Tincture is seal'd in red Wax, with these Words. For preserving the Teeth; and round them, by the King's Patent. Price One Shilling.

The Tincture for curing the Tooth-Ach, gives Ease in few Minutes, even when it is most violent, and in a little Time perfectly cures it. Each Bottle of this Tincture is seal'd with black Wax, with these Words. For curing the Tooth-Ach and round them, By the King's Patent. Price One Shilling.

Note. By Virtue of the Patent above mentioned, I have appointed John Newberry my only Vender of these Tinctures, whom all Persons are desired to apply for them, at his house, the Bible and Crown, near Devereux-Court, within Temple-Bar, London, and at his Shop in Reading, Berks; in which Places, Merchants, Captains of Ships, and Country-Dealers, will have good Allowance to sell again; and particular Bills, in any Language, will be printed for just and Quantities to Foreign Parts.

Sold also at my House, over-against the Green Dragon, Snow-Hill, near St. Sepulcher's Church.

For Dissolving and bringing away the Stone, within the Kidneys, Ureters or Bladder; and for instantly curing the Strangury, and all Heat, Pain, Squeezing, or Difficulty in making Water.

The True Specific CHYMICAL LIQUOR, far exceeding Mr. Stephens's nauseous Medicines, as recommended.

T H E very first Dose of it gives perfect Ease in a Moment, even in the most racking Fit.

either Stone or Gravel, and at once entirely frees the Patient from the Strangury, and all Heat, Pain and Squeezing of Urine; it dilates the Ureters, makes them slippery, and the Crumblings of large Stones, together with Sand and Gravel, may pass freely from the Reins, and be voided with Urine without Pain; effectually cures the Bladder, and all the Urinary Passages from gritty calculous Stones; heals all internal Excoriations or Sorenesses of the Bladder; and all the Urinary Passages from gritty calculous Stones; heals all internal Excoriations or Sorenesses of the Bladder; and all the Urinary Passages from gritty calculous Stones; directly takes off all Pain in the Back, and those Pains from the Cholick, and may be depended upon to dissolve all hard Stones, possibly to be dissolved, so as infallibly to cure most miserable Distempers.

It gives such sudden and unspeakable Relief, that ever takes but one Dose of it, will be thoroughly convinced of its surprising Efficacy, which many Hundreds have experienced to their infinite Satisfaction.

It is such an agreeable Diuretic and powerful Diaphoretic, that it infallibly prevents the Stone in those who are troubled with Gravel only; and for the perfect Cure of either Stone or Gravel, and all Disorders of the Kidneys, Ureters, or Bladder occasioned thereby, is the only true Specific Remedy. It can be surely and safely rely'd upon, as it gives instant Ease as soon as taken, (even when nothing else will) and infallibly accomplishes a perfect Cure without the least Trouble, less pleasanter to the Palate, agreeable to the Stomach, and comforting to the whole Body. It is to be had only of the Gentlewoman at the Sign of the Crown, over-against the Chapel in Coleman street, near Cheapside, London; at 3s. 6d. a Bottle, with Printed Directions at large.
